

People's Choice Cable TV (PCCTV)

We are entering the implementation phase of our new contract with PCCTV. Effective January 1, 2001, we will not be receiving a cable TV signal from Comcast. **The bottom line is that if you do not take any action prior to that date, you will not have a TV signal in your unit.**

If you have not already done so, you need to contact PCCTV to place your order for the desired equipment. You can contact them at **1-877-410-1653**. They will schedule a time for the installation that is convenient for you.

To help in the transition, we are forming an Islandia PCCTV Swat Team led by Dave Bigler, supported by owners in the building who are volunteering their time to help make this transition as easy as possible. Their mission is to facilitate the smooth transition from Comcast to PCCTV over the coming months, with special focus on getting as many units converted during the month of December as possible, and providing installation support, help in selecting equipment, and anything else that is needed.

If you are not going to be in residence prior to January 1, 2010, the Swat Team will, if you wish, accompany the technician to your unit, stay with them while the installation is completed and secure your unit after the technician is finished. You should **NOT** contact the Islandia PCCTV Swat team until after you have scheduled your installation and placed your order for equipment with PCCTV at the number above.

If you wish to take advantage of this service, please contact Dave Bigler at 772-229-3558 or via E mail at dabigler@bellsouth.net.
